

Environmental Policy Statement

Power Plant Training Ltd (PPTL) ensure the sustainable development of our business and the integration of environmental procedures into overall management systems. PPTL will comply with relevant environmental legislation as a minimum requirement and are committed to continuous improvement. Furthermore, they recognise that their customers, the public and employees expect a responsible approach by the Company towards minimising the impact their activities have on the environment and reducing our 'carbon footprint'.

PPPTL believes that everyone in the business has a role to play and will ensure that adequate resources are available so that their staff are trained and are competent to carry out their activities in an environmentally responsible way. PPTL will also work to ensure its suppliers and contractors take their environmental responsibilities seriously.

PPTL will improve their environmental performance by:

- Complying with legislation and treating this as a minimum standard,
- Maintaining an effective Management System,
- Monitoring their carbon footprint and setting targets for reducing this year on year
- Promoting the efficient use of all resources used within their business, including encouraging recycling and the efficient use of water and energy
- Minimising environmental risks and preventing pollution,
- Managing the land and areas under their control sensitively and promoting nature conservation where possible,
- Ensuring that any areas for which they have shared responsibility are managed effectively,
- Working closely with their neighbours and partners to improve environmental performance.

Directors of PPTL
